TECHNICAL DATA SHEET

Silicone spray for plastic, rubber and metal parts - both inside and outside

Art. no. 0893 221
P. Qty.: 1 / 12 / 24

Provides long-lasting protection, maintenance and insulation of plastic, rubber and metal parts, with good lubricating properties.

Prevents embrittlement and eliminates squeaking and creaking noises on plastic and rubber parts effectively. Ideal as an assembly aid and for visual enhancement. Protects vinyl and plastic covers and electrical contacts from moisture. Has an anti-static effect.

Contents	500 ml
Container	Spray can
Colour	Colourless
Chemical basis	Mineral oil
Density/conditions	0.61 g/cm³/at 20°C
Min./max. temperature conditions	-5 to 40 °C
Shelf life from production	24 Month

Application area

- For plastic, rubber and metal parts such as bumpers, protective strips, plastic rails and plastic guides, door seals, rubber seals, rubber cuffs and hoses.
- Suitable for use inside and outside the vehicle.

Application information

Spray evenly onto the cleaned surface and rub with a clean, soft cloth.

Notice

Not suitable for lubricating metal or metal structures

The usage instructions are recommendations based on the tests we have conducted and are based on our experience; carry out your own tests before each application. Due to the large number of applications and storage and processing conditions, we do not assume any liability for a specific application result. Insofar as our free customer service provides technical information or acts as an advisory service, no responsibility is assumed by this service except where the advice or information given falls within the scope of our specified, contractually agreed service or the advisor was acting deliberately. We guarantee consistent quality of our products. We reserve the right to make technical changes and further develop products.
