CODING TO SWING OR SLIDING GATE MOTOR
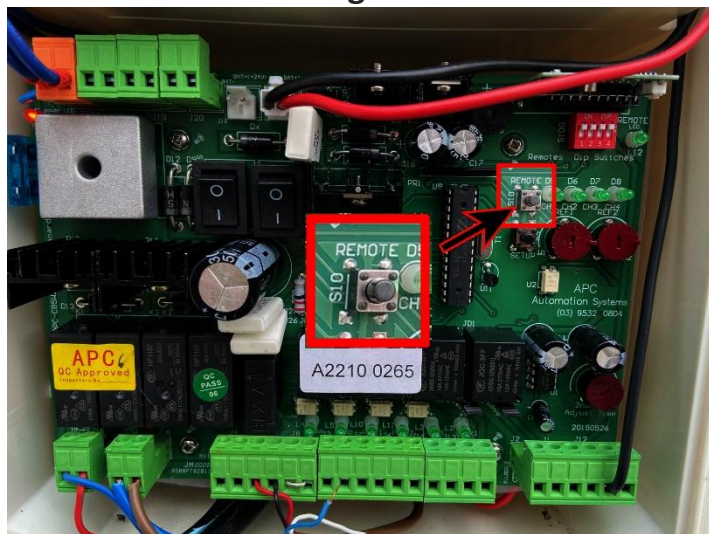

Swing Gate	Sliding Gate

1. Open the cover of your motor to reveal the circuit board.

2. Press and release the learn button (see the appropriate red box in the images above).

3. Press any button you wish to operate your motor on your new remote for 2 seconds.

4. Wait 2 seconds.

5. Press the same button on your new remote again for 2 seconds.

6. Test your remote.
