# REMOTE PRO
PROGRAMMING INSTRUCTIONS

R

GLIDEROL

GLIDERMATIC GTS

1. Remove the light cover from the motor.

2. Locate the remote programming button on the motor's circuit board. Please refer to the images below for a guide.

3. Press the program button on the motor once and immediately release this button. A red light will illuminate. If the red light does not illuminate beside the button you have just pushed then this is the wrong button.

4. In less than 5 seconds, push and hold button A or button 1 on the new remote.

5. The red light will go out and the remote is coded.

**Please refer to the next page for Gliderol GRD motors.**
