R

### GLIDEROL

#### GLIDEROMATIC GTS

1. Remove the light cover from the motor.
2. Locate the remote learn button on the motor board. Please refer to the images below for a guide as there are two models that have buttons in different positions.
3. Press the program button on the motor once and immediately release this button. A red light will illuminate. If the red light does not illuminate beside the button you have just pushed then this is the wrong button.
4. In less than 5 seconds, push and hold button A or button 1 on the new remote.
5. The red light will go out and the remote is coded.

Please refer to the next page for Gliderol GRD motors that have a wall control box.

#### WARNING

This product may contain a coin/button cell battery. Keep product and batteries away from children. A battery can cause severe or fatal injuries in 2 hours or less if swallowed or placed inside any part of the body. Seek immediate medical attention if it is suspected that a coin/button cell battery has been swallowed or placed inside of any part of the body.
